News Culled for The Progress by our own correspondents.

KATEPWE.

—Rush of harvesting about over.

—And soon the hum of threshing will be with us.

—The Qu'Appelle river is very low; in many places it is considerably below the earth's surface.

—A wedding is said to have taken place in the valley a short distance east of the lake on Tuesday last.

—The potatoes have benefited by the August rains, but are scarcely up to former years, while corn is only middling.

—Geese and ducks are getting thicker, prairie chickens are quite plentiful, and crows are an unusually good crop.

—New Zealand complains of a very cold winter, the coldest for thirty years they say. The heat is staying with us instead of going to them.

—The thermometer did considerable climbing last week, getting up past ninety two days in the week, and getting as low as thirty one night in the river bottom.

—A finer sample of citrons and pumpkins than Mr. Powell's would be hard to find in Assiniboia, and the tomatoes just can't be equalled. They are an amazing crop.

INDIAN HEAD.

—C.P.R. agent Lewis and family returned from the coast on the 26th ult.

—Glen Bros., who have been doing a good trade in bronchos for several months, have gone east with a good band of Canadian horses and bronchos.

—Messrs. Harrop & McKechnie have got their new threshing outfit up, consisting of traction engine and separator. This is the first of the kind brought up.

—Mr. P. Ferguson, who recently lost his house by fire, has replaced it with a splendid new stone one. It will be one of the finest farmer's houses in the Territories.

ABBOTSFORD.

—The following is the honor roll for Abbotsford School Section, No. 37, for the month of August:

FOURTH CLASS—1st, Agnes Scott; 2nd, Winnie Hunt; 3rd, Susanna Campbell.

THIRD CLASS—1st, Maggie Ferguson; 2nd, Myrtle Nix and Willie Gibson, equal; 3rd, Maggie Gibson.

SECOND CLASS—1st, Geo. Campbell; 2nd, John Scott.

SECOND PRIMER CLASS—1st, Jessie Ferguson; 2nd, Alex. Ferguson; 3rd, Hugh Gibson.

WOLSELEY.

—W. Clague, from the Isle of Man, has just arrived to take charge of the Methodist work of this place.

—J. P. Dill, merchant, is building a brick and stone residence on the front street.

—A young man working on the farm of John Nix had his right arm badly injured by the premature discharge of a shot gun on Saturday last.

—J. W. Porter, who had been lecturing in the west in the interests of the I.O.G.T., delivered a very eloquent sermon in the Presbyterian church here last Sunday morning. He gave a temperance lecture in the town hall on the 27th ult. Senator Perley occupied the chair.

SUMMERHILL SCHOOL.

—The following shows the standing of the pupils in their respective classes for the month of August:

FOURTH CLASS—Maggie McDonnell.

SENIOR THIRD CLASS—1st, Hattie Dynes; 2nd, Mary Fleming; 3rd, Rebecca and Stuart Fleming, Donald Laidlaw, John Fleming, Wm. Fleming.

JUNIOR THIRD CLASS—1st, James Laidlaw; 2nd, Maud Aldred; 3rd, Wesley Dynes; Talmage Dynes, Barbara McDonnell, John Aldred, John Laidlaw, Thos. Fleming. The average attendance during the month was 18.

MEDICINE HAT.

—A banquet was given the Hon. E. Dewdney, Minister of the Interior, last Saturday by the Conservative association of the town. The hon. gentleman was escorted from his private car to the government hall at 8.30 p. m., where he found 150 of his friends seated around a bountifully spread table in a magnificently decorated room. After doing justice to the spread, the guest of the evening was introduced by Thomas Tweed, M.L.A., and spoke at length on the question of interest to his hearers. Among the guests present who entertained the company with speeches were Dr. Brett, of Banff; Mr. Richardson, vice-president, and Sir John Lister Kaye, general manager of the C. A. C. & Co., and Dr. Hamilton, of Maple Creek. At the conclusion of the banquet at a late hour, the hon. gentleman was escorted back to his car by a torch-light procession, headed by the Lothbridge band, thus concluding the most successful banquet ever tendered to any public man in the Northwest Territories.

GLEICHEN.

—Minister Dewdney arrived here on Saturday in his special car. About five hundred Blackfoot Indians, all well mounted, came from the reserve to escort him to the Blackfoot agency, where a big pow-wow was held. The Indians were well pleased to see the minister, or "White Beard," as they call him, and of course were well pleased with the presents received.

Hon. Theodore Davis, Attorney-General for British Columbia, has been elected over Mr. Milne by a majority of 111.

BATTLEFORD.

Saskatchewan Herald.

—The fall exhibition of the Central Saskatchewan Agricultural Society will be held at Saskatoon on the 2nd October.

—A. Sufferin, for some years past farming instructor on Thunderchild's reserve, has resigned his position, and will go to farming on his own account. H. H. Nash has been appointed to succeed him.

—A person just in from the Snake Plains reserves, north of Carlton, says the Indians have lost a great deal of hay by fire, and that not only has everything on the surface been consumed, but the bogs and muskegs themselves are on fire and have burned to a depth of several feet.

The MacLeod Gazette says: The editor of this paper is now in a position to add his personal testimony to the fact that the existence of crude petroleum in the mountains near Macleod is a solid fact. The oil comes to the surface in several places in fairly large quantities, and it is as absolutely certain as anything can be that, throughout the entire length of the valley in which the oil appears, boring will reveal large quantities of the valuable fluid. A good many claims have been staked out and surveyed, and that is now required is capital to open up and develop what we believe will soon become one of the most valuable oil regions in the world. While the valley in which the oil has been found is well in among the mountains, there will not be the slightest difficulty in getting the crude article down to the prairie. A stream runs the whole length of the valley, and out onto the plains, so that a pipe line along its course would be a comparatively simple matter. It is probable that steps will be taken to enlist capital for the development of these oil fields, and there is not much doubt that such capital can be obtained without much difficulty. The importance to this country of the discovery cannot be over-estimated.

CROWNED AND UNCROWNED.

The head of anyone suffering from constipation, biliousness, or dyspepsia will harbour a sick headache. By regulating the bowels, arousing the torpid liver, improving the digestion, and purifying the blood Burdock Blood Bitters banishes sick headache, no matter how severe or obstinate it may be.

In the French schools of Ontario, according to the report of the Government commissioner, the Lord's prayer is repeated daily. Here then is a starting point in the direction of religious exercises upon which we can all agree, and indicates that it is not necessary to do without religious devotions of every character in order to have non-sectarian schools.

THE OKLAHOMA BOOM.

Forms an instance of a wild rush, for uncertainty, which is just the opposite of the steady boom enjoyed by Burdock Blood Bitters. Buyers of this medicine get a certainty—an unequalled remedy for all diseases of the stomach, liver, bowels, kidneys and the blood.

Sunday School Lessons.

In this country where settlement is so general and many have no frequent opportunities of attending public worship, our Bible Lessons will be a great help to the study of one set portion of Scripture for each Sunday. The head of the family should collect its members around him and, if possible, sing some hymn and offer prayer, then read, the portion of Scripture set for the day, take up each verse and try to induce each member of the family to talk about it and ask questions. The comments on the lesson we give will help to make the study interesting and be valuable to aid in answering questions. This should not, however, be allowed to interfere with opportunities to attend to preaching service as frequently as possible. To the regular Sunday school teacher and scholar our Bible study column commends itself by experience.

DAVID SPARES SAUL'S LIFE

LESSON XI, THIRD QUARTER, INTERNATIONAL SERIES, SEPT. 15.

Text of the Lesson, 1 Sam. xxi, 4-17—Comment Verses 11, 13—Golden Text, Rom. xii, 31—Commentary by the Rev. D. M. Stearns.

(Compiled from Lesson Helper Quarterly by permission of R. S. Hoffman, publisher, Philadelphia.)

After David and Jonathan parted that day, as recorded in the last lesson, David obtained from the priest some bread and also the sword of Goliath, and then fled to Achish, king of Gath, but was also afraid there, and, feigning himself mad, soon made his escape from that quarter and came to the cave Adullam. Here he was joined by his father and mother and brethren and about four hundred men, over whom he became captain. He did not, however, tarry long at Adullam at this time, but, having made provision for his father and mother with the king of Moab, he sallied forth against the Philistines and defeated them. His company increased to six hundred men, and he had with him Gad, the prophet, and Abiathar, the priest; they abode at strongholds in the wilderness, and Saul sought him every day, but God delivered him not into his hand.

4. "And the men of David said unto him, Blessed the day, of which the Lord said unto thee." Saul, who so persistently sought David's life, is now completely in David's power and his men seem to suggest that now he slay him; but as David himself had cried, "Be merciful unto me, O God, be merciful unto me" (Ps. li, 1 and Title), so he would show mercy even to Saul, and is content to lay no hand upon him, but simply cut off the skirt of his robe privily to show him afterwards that he had him in his power.

5. "David's heart smote him because he had cut off Saul's skirt." Even for asserting this slight token of his power, he feels constrained.

6. "The Lord forbid that I should do this thing unto my Master, the Lord's anointed." Here is another view of the case; Saul was not acting like the anointed of the Lord, should act, his life did not testify in that direction, but as to his office he was "the anointed of the Lord," and therefore responsible to God to act as such; and if he failed it was for the Lord and not for David to deal with him.

7. "So David stayed his servants with these words." Saul rose up out of the cave and went his way. "We may do very much by kind words and the manifestation of a Christ-like spirit to hinder others from speaking against or touching in any way the anointed of the Lord."

8. "David . . . cried after Saul, saying, 'My lord the king,' . . . and stooped with his face to the earth." Notwithstanding David's fears and oftentimes questionable conduct, here is a truly humble and forgiving spirit. Whatever were his sins, his heart was in the main right with God, and his failures tell us the truth of that which he himself wrote: "Verily, every man at his best estate is altogether vanity."

9. "Wherefore hearest thou men's words, saying, 'Behold David seeketh thy hurt?'" Saul had turned a deaf ear to the words of God, and was giving heed to the lying and deceitful words of men, and was, therefore, far from the way of peace. The only rest of soul for man is upon the words and thoughts of God; but how few, even among Christians, rest quietly there! The words of this or that man, what some one has said or reported, is constantly heeded, and there is, therefore, such unrest, while all the while the God of peace is speaking peace and longing to give peace to all who will hear Him.

10, 11. "Some bade me kill thee, but mine eye spared thee; . . . yet thou hast not my soul to take it." Here David recounts the incident in the cave, and displays as proof of the truth of it the part of Saul's robe which he had cut off, thus testifying most unmistakably that there was no evil in his heart towards Saul. Notice how David says to Saul that it was the Lord who delivered him into his power in the cave; when we begin to see the Lord and acknowledge His hand in everything all fears and doubts will soon vanish. David was now in a better frame of mind than when he talked with Jonathan of Saul killing him; but the circumstances were different now, and it is so easy to be bright when the sun shines upon us; there is more glory to God in being joyful in the dark and cloudy day.

12. "The Lord judge between me and thee, and the Lord avenge me of thee, but mine hand shall not be upon thee." This is beautiful on David's part; this is surely casting his burden upon the Lord; it is in accordance with Rom. xii, 19, "Dearly beloved, avenge not yourselves, but rather give place

unto wrath;" that is the wrath of God, not your wrath; let Him manage all. Oh, what a resting place this is; we have not to fight our own battles for it is God who fighteth for us; we have not to defend our reputation, but commit all unto Him; we have no revenge to take, but inasmuch as whoever toucheth us toucheth the apple of God's eye, just let Him see to it in His own good time and way.

13. "Wickedness proceedeth from the wicked, but mine hand shall not be upon thee." If the boys of all our Sunday schools would act upon this principle, and remembering that wicked words and deeds proceed from wicked hearts, avoid all such, refusing even, when injured by them, to lay a hand upon them, it might be that some wicked hearts would be won by such a spirit and learn of the new and clean heart which alone can act in such a way.

14. "After whom dost thou pursue? After a dead dog, after a flea." In chapter xxvi, 30, when he again had Saul in his power and spared him, he used similar words, comparing himself to a flea and a partridge. David was as harmless to Saul as a dead dog, for he had no thought of doing him any injury; but Saul, tempted by the evil spirit of envy which had taken possession of him, fancied all manner of things against David, and his fancies were helped by the liars and slanderers about him. How many wretched people live today who imagine that evil is surely coming to them from this or that direction, while the truth is that the imaginary source of evil is as harmless as a dead dog or a flea.

15. "The Lord to judge." . . . and we and plead my cause and deliver me out of thine hand." "Judge nothing before the time, until the Lord come." "We shall all stand before the judgment seat of Christ."

"Every one of us shall give account of himself to God." These are some helpful words of the Holy Spirit upon this matter from the New Testament. In Ps. lxxii, 12, we read that "He shall deliver the needy when he crieth; the poor also and him that hath no helper;" and David proved these things in his own experience. So may we if we will but commit ways and works and thoughts unto Him, and firmly believe that He is the living God and our Father.

16. "Saul said, Is this thy voice, my son David? And Saul lifted up his voice and wept." There are many such words and tears nowadays, but they do not amount to anything. That they did not mean much from Saul at this time is evident from chap. xxi, where we see him as hotly as ever pursuing David to take his life.

PRAIRIE FIRES.

As time goes on it becomes more
and more apparent that something
must be done to prevent prairie
fires. We learn that upwards of
500 tons of hay has been destroyed
near the Yellow Grass marsh, south
of here by these disastrous fires
during the past fortnight. The en-
gine drawing the train to which
Hon. E. Dewdney's car was attach-
ed from here to Regina, started a
prairie fire which it is believed
burned over many miles of country.
Almost every day fresh fires are
started by the C. P. R. engines.
This is a question that must be
grappled with and a solution found.
It has been estimated that the ex-
penditure of \$20,000 would produce
an effective fire-break on both sides
of the C.P.R. through the Territo-
ries from the boundary of Manitoba
to the Rocky Mountains. This
would be the cost the first year, and
thereafter it is further estimated
that \$5000 a year under present
conditions would keep it in repair.
But as the country filled up with
settlers the cost would gradually
decrease each year. Though the
Northwest Legislature passed a
very stringent ordinance to punish
any one who may start a prairie fire.
The law seems to be inoperative as
against the C.P.R. And it is a
question whether the Legislature
has power to enforce the law against
a corporation created by the Domini-
on Parliament. However, notwith-
any doubt as to their jurisdiction,
the Legislature should so amend
their prairie fire ordinance as to
avoid all possible chance of defeat
on a technicality or question of form.
This done provision should be made
for the most rigorous prosecution of
cases against all who may be the
means of starting prairie fires. Be-
yond that the Legislature should
make representations to the Domini-
on Parliament to take action on
this question. If this matter is
vigorously taken hold of in the
Northwest, the Dominion Govern-
ment and the C.P.R. Co. might be
brought to see the necessity of pre-
cautionary measures. It would be
fair to the country and the C.P.R.
if the cost of maintaining fire-breaks

as mentioned above were equally
borne by both. If Parliament were
to appropriate \$10,000 for that pur-
pose and require the C.P.R. Co. to
pay a like amount to a Commission
appointed for making and maintain-
ing fire-breaks, the danger of the re-
currence of prairie fires would be
reduced to a minimum. We are
not urging this matter in a spirit of
hostility to the C.P.R., but in order
that a remedy may be found for
these yearly devastations of the
prairie by fire. It is to be hoped
that a solution of the question may
speedily be found.

SPEAK OUT.

The people of the Northwest
should not fail to speak on the dual
language and separate school ques-
tions. The Legislative Assembly
will meet October 1st, and the hands
of the members should be strength-
ened to make a decided stand for
one language and one system of ed-
ucation for the Northwest. Let us
lay our foundation right, and our
Governmental superstructure will
be something of which we may all
feel proud. British Columbia has
no French language and no separate
schools. Manitoba is going to
abolish them. Let us have a united
people west of the great lakes.
Meetings should be held in every
district and resolutions passed on
these questions. The busy season
will be over in time to hold these
meetings before the meeting of the
Legislature.

THE CANADIAN SITUATION.

The religious issue in the Domi-
nion must finally be settled by con-
stitutional reform. There is enough
vagueness in the Act of Federation
in respect to provincial autonomy to
enable Rome to intrench itself in the
very seat of Government in Quebec
and to carry on an unceasing propa-
ganda in other provinces. From
an American point of view, the agi-
tation over the Jesuit Estates bill is
a symptom. The fundamental law
should be changed so that it would
be illegal for a province to endow a
religious order out of the public
funds, and to yield to the Roman
Catholic Church the privilege of ex-
acting tithes and fabrique taxes,
controlling public education, and ad-
ministering official oaths. Until
there is a complete separation of
Church and State, Canada will not
be happy. Such is the verdict of
history.—*Springfield (Mass.) Re-
publican.*

TEN THOUSAND SALOONS.

A New York paper attacks the
evil of intemperance from a new
standpoint. With keen sarcasm
the editor writes:

"It is estimated that the ten
thousand saloons of New York City
take in \$220,000 per day, or \$75,-
000,000 per year. This seems a
great waste of money; but it should
be remembered that these saloons
are a great help to many trades and
professions which would fall to a
very low ebb of prosperity without
the extraneous aid thus rendered
them. The doctors and undertakers
have great reason to be grateful to
the saloon-keeper; and without
him, pray how could our criminal
courts be carried on at a profit, or
what would become of the legal
profession? One should look on
both sides of a thing before con-
demning it!"

Servian papers threaten an inva-
sion of Bulgaria by the Servians.

Mr. A. M. Burgess, Deputy Min-
ister of the Interior, has left Ottawa
for Manitoba in connection with
the settlement of the claims of old
settlers.

There are no separate schools in
the United States. This is a pretty
safe example for Canada to follow,
particularly in view of the success
that has been met with over there
in moulding all other nationalities
into Americans. Here in Canada
the mistake has been made from the
start in fostering up religious and
race divisions.

The French papers are astir over
the Greenway policy against the
French Canadians and Catholics of
Manitoba. One of them says: "We
are a people of remembrance and re-
member how our fathers used to
wrestle in these kind of struggles.
Let us stand by our rights and while
we wait the issue of the persecution
let us be moderate as those becoming
to a people conscious of being in the
of being in the right and confident in
the justice of their cause.

The Minister of the Interior has
decided that the privilege of con-
verting eighty acre homestead and
pre-emption entries into entries of
160 acres each may be extended to
those persons who have patents is-
sued for their eighty acre home-
steads, or who have been recom-
mended for patents. What they
have paid for eighty acre pre-emp-
tions will be applied by the depart-
ment on account of the additional 1
section the homesteader is entitled to.

Valley City, Dak., Aug. 29.—The
office of the Times-Record of this
city was completely demolished by
a mob on Tuesday night. The en-
ditor of the paper is a prominent Pro-
hibitionist. The editor had been
warned frequently, but the effect
was to make his attacks upon the
element more bitter. At dark on
Tuesday evening a mob surrounded
the building, and at a given signal a
rush was made, the door was broken
in and the work of destruction com-
menced. It was not stopped until
everything that could be destroyed
was demolished. The presses were
broken and the type thrown into
the street, ink spilled on the floor,
and not a dollar's worth of stock
escaped the general wreck. Sever-
al participants in the outrage are
known, and they will be most vig-
orously prosecuted.

Mr. Mercier's principal organ,
L'Electeur, in its issue of the 21st,
says if the Greenway Government
abolishes separate schools and the
dual language system in Manitoba
"we shall demand the rigorous ap-
plication of the same iron rule in
this province." It adds that at present
the English minority in Quebec is
treated liberally. "Their language is
recognized, they have their own
schools, subsidized by the State, and
their own Bureau of Public Instruc-
tion"; but if Mr. Greenway lays a
hand on the French privileges in
Manitoba *L'Electeur* will "at once
advise the Mercier Government to
following his example." Our con-
temporary knows right well that this
is more bluster. Mr. Mercier could
not abolish the English language
without first abolishing the British
flag; nor could he touch the non-de-
nominational schools in Quebec for
any such reason as that here given.
It is simply impossible to defend the
state of things existing in Manitoba,
and if the French-Canadians are wise
they will not make any foolish at-
tempts at retaliation.—*Mail.*

Mr. John Dyke, agent of the Dominion Government at Liverpool, now in Ottawa, admits the present light immigration to Canada, and accounts for the large inflow to the States by the greater generosity of the settlers there, who make a practice of sending tickets to bring out relatives and even acquaintances to the land in which they have made their home.

The French elections are to take place on the 22nd inst.

Another serious affair occurred Saturday morning, when a well-known citizen of Puskeget Lake was dragged from his bed by Whitecaps and a severe thrashing administered to him. He had been warned several times lately that something would be done by the society, but did not heed the warnings, when early on Saturday four stout men came into his room and took him out of bed. He presents a terrible appearance, the face being kicked to a jelly and the body all black and blue. He says he can identify three of his assailants.

A letter by the steamer St. Paul, which arrived from Ounakaska on Tuesday night, from an officer on board the cutter Rush, says that the latter on August 6 captured the British schooner Lilly, of Vancouver, while taking seals in Behring's Sea. Three hundred skins were found on board the Lilly, which were seized and transferred to the Rush. A prize crew of one man was placed on the schooner, with orders to take her to Sitka. The seized vessels will have their cases tried in the Alaska district court. The Rush is expected to be relieved by the Bear at Ounakaska, when she will proceed to San Francisco. Fourteen sealers in all have been boarded by the Rush and warned to leave Behring's Sea, in addition to the six captured. The cargo of the St. Paul consisted of 100,000 seal-skins.

Present Age of the Earth.
The present age of the earth has been
placed by Sir William Thomson at 100,000-
000 years, while the speculations of others
have given much larger figures. There are,
however, good grounds for regarding 16,000-
000 years as a moderate estimate. Scientists
concur in thinking that this is but a small
part of the earth's existence, and everything
leads to the belief that its total evolution
through the immensity of space will exceed a
million centuries.—New York Commercial
Advertiser.

A Big Claim in Italy.

This is a curious story which comes to
us from Italy. The heirs of King Joachim
Murat, who, it will be remembered, was
executed, have, it seems, demanded an
indemnity of \$10,000,000 for the estates
belonging to their ancestor in the former
kingdom of Naples, which were confiscated
after the return of the Neapolitan
Bourbons in 1815. Stranger still is the
report that King Humbert's government
has offered \$6,000,000 in liquidation of
the claim. This is one of the many levers
which it is possible to work against the
house of Savoy. The Neapolitan Liberals
still retain a grateful remembrance of the
reign of Murat, and it is also true that
the Florentines had little to complain of
in their last grand duke. Indeed, the
tax payers of Florence, burdened as they
now are by an immense municipal debt,
may well look back to the grand ducal
regime as to a golden age.—San Francisco
Argonaut.

Tardy Downing Street.

It has recently been discovered in
Downing street that steamer passage
money on the coast of China includes
food, while on board; and instructions
have accordingly been sent out that
British officials, while traveling by
steamer on duty, are to refund \$2.50 for
every day they are on board, in order to
cover the cost of the food supplied them.
The practice of supplying food to travel-
ers by ocean steamers has existed since
the invention of steamers; but the
knowledge seems to have only just
reached Downing street, with the con-
sequences here stated.—Once a Week.

No One of the Kind on Record.

During his trip to Norway the emperor
of Germany was knocked down and
slightly hurt by a mass of ice from a
glacier. If he had been in this country
he would not have escaped so easily, as
here the mere shock of seeing a fall in
ice is enough to kill the strongest man.—
Baltimore American.

A Valued War Belt.

Angelo Pacha, color sergeant of Com-
pany G, First Michigan cavalry, under
Capt. Alexander, was in the battle of
Gettysburg. On the third day of the
fight when the bugle call sounded he
drank water out of his tin cup. He
placed it in the crotch of an apple tree
and joined his command and forgot all
about it. Last week he went to the bat-
tlefield and bought the tree for \$25, and
had the tree cut up and carried to his
home. The cup was completely imbed-
ded in the crotch of the tree, and Angelo
prizes the relic beyond anything that he
owns. He was in the city yesterday
and gave away parts of the apple tree to
his old army comrades.—Cincinnati En-
quirer.

Arrest of French Bankers.

Considerable sensation was produced
in Paris a week or two ago by the arrest
of three well known bankers on the sus-
picion that they were concerned with
the disappearance of a Swiss named
Caudanian. The latter had been a serv-
ant of a Mme. Essart, and at her death
received her fortune of 200,000 francs.
His riches drove him demoralized, and
since he disappeared the bankers have been
arrested.—Chicago Times.

Encouraging Investigation.

The Astley-Cooper prize, of a value of
\$5,500, will be awarded in 1892. The
question proposed is, "The Influence of
Micro-organisms Upon Inflammation."
The papers of those contesting for the
prize should be written in English or
accompanied by an English translation,
and should be addressed before the 1st
of January, 1892, to the Guy Hospital,
London. The prize will not be awarded
to two or three working together.—Sci-
ence.

FOUR NEW STATES.

South Dakota, North Dakota, Mon-
tana and Washington.

On February 22, 1889, the President signed
the bill creating South Dakota, North
Dakota, Montana, and Washington states of
the Union.

South Dakota.—The great Prairie State,
to which the St. Paul, Minneapolis & Mani-
toba Railway has three main lines, reaching
Ellendale, Aberdeen, Huron, Watertown,
Sioux Falls, etc. South Dakota, via
the St. Paul, Minneapolis & Manitoba Railways
and pass through St. Paul and Minneapolis en
route.

North Dakota.—Where is grown No. 1
Hard Scotch Life wheat; where healthful
climate nurtures the most vigorous and
brave civilization on earth; where simple
counties raise more wheat, oats and barley,
than entire states; the soil of whose fertility
grains is richer than the valley of the Nile;
where the Turtle Mountain, Minn.,
Devil's Lake and districts invite the home
seeker to secure a free home. Magnificent
daily train service to Fargo, Grand Forks,
Grafton, Devils Lake, Bottineau, and all
other important points.

Montana, the golden—Treasures in her
mines of precious metals; wealth in her
4,000,000 head of live stock; profit in her
fertile fields, producing a larger yield of
crops than any other state or territory;
the richest country per inhabitant on earth
where prosperity is universal; which has
the best paid labor in the world; a balmy
winter climate, caused by warm winds from
the Pacific. The St. Paul, Minneapolis &
Manitoba Railway is the only railroad pass-
ing through a continuous agricultural country
from St. Paul and Minneapolis to the Rocky
Mountains. It runs through the Great Re-
servation of 18,000,000 acres of land, free to
settlers, in the Milk River Valley. Wood,
water, and coal in abundance; no irrigation
required; the only line passing through
Great Falls; with its 1,000,000 horsepower
waterfalls; immense coal veins, and sur-
rounding farming country of free land;
through Helena, the capital city and com-
mercial centre of Montana, and Butte,
the richest mining camp on earth, to San Fran-
cisco by the Columbia River Valley, Port-
land and Shasta Route, or Oregon, Utah, to
California points. Remember this: it is the
only line running dining cars, sleeping cars,
and free colonist sleepers of its own from
St. Paul and Minneapolis to Great Falls, Hel-
ena and Butte. It is also the shortest line
to Butte.

Washington.—The country of tall timber
indented by Puget Sound, the Mediterranean
of the Pacific. Do not forget that the
St. Paul, Minneapolis & Manitoba Railway is
the only line which offers a choice of three
routes to the Pacific coast. The Manitoba
Pacific route is the only line by which pas-
sengers en route for Tacoma, Portland and
San Francisco can pass through Port Town-
send and Seattle. Free colonist sleepers run
through without change or delay. Distance
to the Pacific Coast is same as by old lines
but prices of tickets are five and ten dollars
less. Take the Seattle route.

No. 501.—Enigma.—A Rural Preacher.
My Christian name is very plain,
And not at all befitting
A position which but few obtain,
And none would think of quitting.

I am a minister of fame,
My sermons are quite racy,
And though you may not like my name,
You'll feel their efficacy.

If you should to the bottom go,
And taste their pungent flavor,
You'll then admit their strength, I know,
And say there's no palaver.

No other pulpit in the land
Can be of mine equal—
Within I stand, both tall and grand,
And cure not for the sequel.

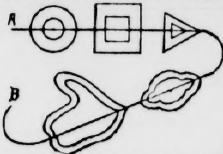

No. 502.—Historical Puzzle.
I am composed of nine letters.
1. My first and fifth are the initials of a
noted reformer.
2. My fourth and second the initials of a
favorite story teller.
3. My seventh the initial of a famous seer.
4. My sixth the initial of a courageous and
strategic king of an eastern country who lived
many years ago.
5. My eighth the initial of a living mon-
arch.
6. My ninth the initial of a Hebrew pro-
phet.
7. My third the initial of a renowned em-
peror.

Though first my words are few;
I have no feet, I cannot walk,
Yet run I can and do.
In figures I am posted well;
I'll point them out, their names I'll tell.
My face—you often on it gaze;
My hands I often upward raise.
In truth I never lifted up
But what I told you when 'twas done.

No. 509.—Word Transformation.
Find a body of men commanded by a

QU'APPELLE.

—The Regina Presbytery meets here on Wednesday next.

—Qu'Appelle Masonic Lodge meets next Tuesday evening.

—The ammunition is suffering now and sometimes the birds feel it.

—Next Sunday morning Rev. F. W. Fraser will preach his farewell sermon at Balgonie.

—Messrs. R. D. Strong, C. E. Cullen and Harrold Jagger went up to Regina yesterday on business.

—Mr. and Mrs. Beauchamp leave on Monday for Montreal and other eastern points, to be away about eight weeks.

—Secure the latest dress patterns by ordering at the Medical Hall. Laage Metropolitan book of fashion to select from.

—Mr. and Mrs. R. Johnston, Mr. Jas. Scott and Miss Scott left this morning for a trip to Calgary. They will stop over there for the races next week.

—Beautify your homes by growing winter flowers. Orders taken at the Medical Hall for bulbs that will stand frosts that will kill geraniums, etc.

—The stereopticon exhibition held in the recreation room on Thursday evening of last week was really excellent but was not as well patronized as it deserved.

—The brass band was out on Wednesday evening playing for the benefit of the citizens. They are remarkably proficient in their music. Strangers who visit the town are surprised at the excellence of their performance.

—Remember the auction sale of stock and chattels belonging to R. F. B. Dopping-Hoppenstall opposite Mr. S. Tees' livery stable. Sale to commence at 13 o'clock sharp. There is a very large number of articles of various kinds.

—Corpl. Purches has been appointed fire guardian for this municipality. He has authority to call out any person to assist in extinguishing prairie fires. In the event of refusal to go when called on the person may forthwith be arrested and fined.

—Mr. Wm. Chesterfield has a grade cow five years old that is marvellously prolific. She has had six calves, one at two years of age, two at three years, two at four years and one this year. Her stock has been all strong and healthy. Mr. Chesterfield values the cow at \$200.

—Messrs. Hawkes and Blair have purchased a new D. L. Sawyer steam thrasher with all the latest improvements, and expect to commence operations next week.

—The ratepayers of ward three of this municipality are complaining that they are not receiving their fair share of the monies that should be expended for public improvements. On being quizzed the other day, we are informed that their representative said he did not know where the money went to.

—An assembly in connection with the Philharmonic Society was held in the Society's rooms on Friday evening, the 23rd ult. There was a good attendance and dancing was kept up till 24 o'clock to the strains of the "Harmony." The music was good and every one present spoke highly of the evening's entertainment. A refreshment room and smoking room in connection were well patronized. The next entertainment will be in the form of a social of which further particulars will be announced.

—A correspondent writes to us as follows: "I am at present greatly exercised over a matter which means dollars and cents to me, and probably to others; and as your valuable paper is largely circulated among the farming community, it has occurred to me that some of your numerous readers might be able to help me out. I know of means of attracting pigeons to the dovecote, bees to the hive, fish to the bait, etc., but I know of nothing that will attract hens. Now, a large number of my neighbors' hens frequent the vicinity of my stables, but only a speckled one and a black one venture in, so that I only get two eggs a day, which is not enough for a large family. I would be much obliged if some of your readers would suggest a plan, by which more of the hens would be induced to lay their eggs in my mangers."

—At the Queens: C. E. Poulin, R. Stewart, Winnipeg; W. R. Campbell, Moose Jaw; H. J. Brett, Regina; T. Ross, Carberry; A. M. Stewart, G. E. R. Jones, J. M. Campbell and son, Prince Albert; A. M. Hune, Balgonie; J. H. Holman, H. G. Middleton, Montreal; M. Pees, Gull Lake; M. Westaway, McLean.

—At the Leland: Judge Maguire and family, F. C. Baker and wife, J. M. Campbell, Prince Albert; R. W. Mowbray, Moffat; M. M. Seymour, M. D., D. W. Fitzgerald, Fort Qu'Appelle; H. S. Reynolds, File Hills; A. E. Forget, H. J. Peters, Regina; D. H. Macdonald, M. P., and family, Dr. Blanchard, and wife, J. W. Munroe, Dr. Stewart, H. G. Middleton, W. S. Burns, W. T. Heddle, W. Cowley, Winnipeg; W. Jackson, Medicine Hat; Rev. W. F. Brown, H. J. Adams, Moose Jaw, W. J. Johnstone, Ottawa, H. Mitchell, Duck Lake.

—A correspondent from Wolsley sends us a report of the Methodist District meeting received too late for last week's issue. From it we take the following: "After the financial business was gone through successfully, views were given as to the best means of reviving our different missions, and not coming to any final issue, it was left to the arrangements of the ministers, who according to the best time of the year, should arrange with their nearest Bro. minister to have a week or so of mission work at each other's station, and thus furthering the Master's work and extending his church in the heart as well as the land, which we think is greatly needed."

THE FOUR CARDINAL POINTS.

The stomach, the liver, the bowels, and the blood are the four cardinal points of health. These Burdock Blood Bitters act upon to strengthen, regulate, cleanse and purify, thus restoring and maintaining perfect health. B. B. B. is nature's true tonic and renovator.

—Outside of Regina, the capital of the Northwest, and Calgary, both places three times the size of this, THE QU'APPELLE PROGRESS is the largest paper published in the Northwest Territories. It gives better value for the money than any other. Subscribe for it now. Only one dollar a year.

—Mr. Adam Sykes returned to England last week after spending several days inspecting Edgeley Farm and driving over a considerable part of the neighboring district. Mr. Sykes is of the opinion that with an average rainfall during the summer months, good crops are sure, and that the country would be rapidly filled up with settlers. Mr. Sykes is a son of T. H. Sykes, Esq., of Chandle, Eng. He takes a lively interest in agricultural matters, and hopes soon again to visit Qu'Appelle.

SAFE AND RELIABLE.

I highly recommend Dr. Fowler's Extract of Wild Strawberry for curing cholera, cholera morbus, colic, cramps, diarrhoea, dysentery and all summer complaints. It is safe and reliable for children and older persons.
